

Systems Thinking and Six Sigma

(How to integrate Lean Six Sigma, Innovation and System Thinking to achieve Sustainable Change)

Saskatoon, October 28, 2017

**Presented By
ASQ Saskatchewan**

Summary

Many organizations are not successful in implementing sustained Business Excellence programs which usually fade away after a couple years following the initiative deployment. During the learn and do workshop you will learn how to :

- Build your capability to analyze and use System Dynamic mental models to identify initiative key drivers and understand their interrelationships
- Apply your creativity capability to develop innovative Business Excellence solutions
- Model your implementation plan

Presenter

DR. MICHAEL MLADJENOVIC

Master Black Belt, ASQ Certified Quality Auditor

Dr. Michael Mladjenovic is a Master Black Belt, whose professional experience includes senior leadership positions in manufacturing, engineering, continuous improvement, and quality assurance for LifeLabs, Maple Leafs Food, Magna Int., Intier Interiors, General Electric, PPG, and SKF (IKL).

During his work in automotive, food, electronic, and health sectors Dr. Mladjenovic has lead a number of initiatives related to Enterprise Business Systems development and improvement strategies and Quality Systems implementation. He has conducted training and workshops on Six Sigma, Process Management, Project Management, Value Engineering, Lean Manufacturing, Theory of Constraints, TPM, Kanban, Kaizen and 5 S, and Value Stream Mapping.

Dr. Mladjenovic is an ASQ Certified Quality Auditor, Six Sigma Black Belt, Biomedical, Software, Reliability and Quality Engineer, Registered Professional Engineer, and holds a B.S., a Master's and Doctor's Degree in Mechanical Engineering and Business.
